the effects of

SOCIAL MEDIA

on children

FABS

first social media communication
MAY 24, 1844

In a sense, social media began on May 24, 1844, with a series of electronic dots and dashes tapped out by hand on a telegraph machine. The first electronic message from Baltimore to Washington, D.C., proved Samuel Morse understood the historic ramifications of his scientific achievement: "What hath God wrought?" he wrote.

FADS

Facebook

FEBRUARY 4, 2004

Harvard sophomore named Mark Zuckerberg launches The Facebook, a social media website he had built in order to connect Harvard students with one another. By the next day, over a thousand people had registered, and that was only the beginning.

educational
PLATFORMS
social media influence

With specific education "social media" platforms such as Google Classroom, Class Dojo, Blackboard and Canvas, teachers and parents can connect and educate students remotely. Social media provides a platform to connect students and provides a platform to connect students and teachers.

ELEMENTS

The Stream Tab is where teachers can share an announcement or send their students reminders. They can also attach materials to enrich the lesson. Once students are added to the class, teachers can conduct their class online or use Google Classroom's mobile app for in-class learning.

bad posts

INAPPROPRIATE CONTENT ONLINE

Developmentally, kids brains think what they post is silly, funny or interesting, even when it's not. I compare it to an adult having a few glasses of wine and then posting something on social media. What you write under the influence is very different than your sober posts.

GSUITE CONSOLE

Users at domain can find and edit sites to allow all users in the domain to find and edit newly created sites. Private to restrict the default visibility of new sites to the site creator.

CONTROLLED FRENZY

ZSCALER& BARK!!!

Bark's comprehensive service lets you monitor content, manage screen time, and filter websites so you can get peace of mind while your child is online..

Zscaler is a cloud-based web filtering and security solution that offers K-12 schools a way to protect students and staff from internet-based threats. The solution uses advanced technology to provide real-time, multi-layered protection against various web-based threats, such as malware, phishing, and ransomware attacks.line..
